Pro Tips by Lauren Levorsen

- *Let the kids be in charge of their own segments....even if it kills you! They get so much more out of the experience in news team if the “news” is THEIRS!*
- *Organize each year’s news team **with** them...again, it will help them to be more involved!*
- *Show them videos of news clips (some of them have never seen a true news segment (shocking!))*
- *Edit the videos yourself. There begins to be too many cooks in the kitchen if you let everyone participate*
