

# Art & Creativity

*String Art*

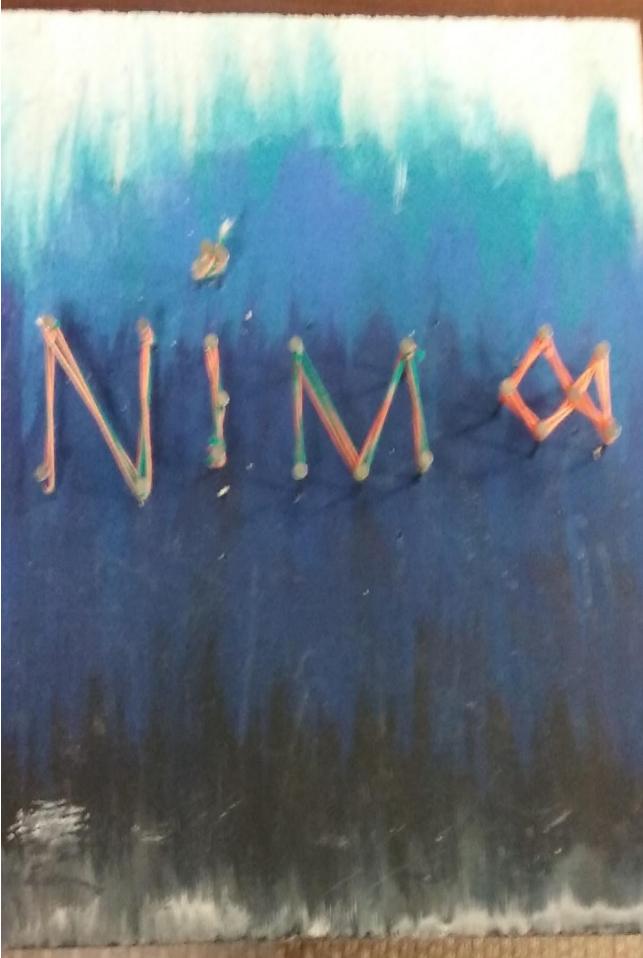

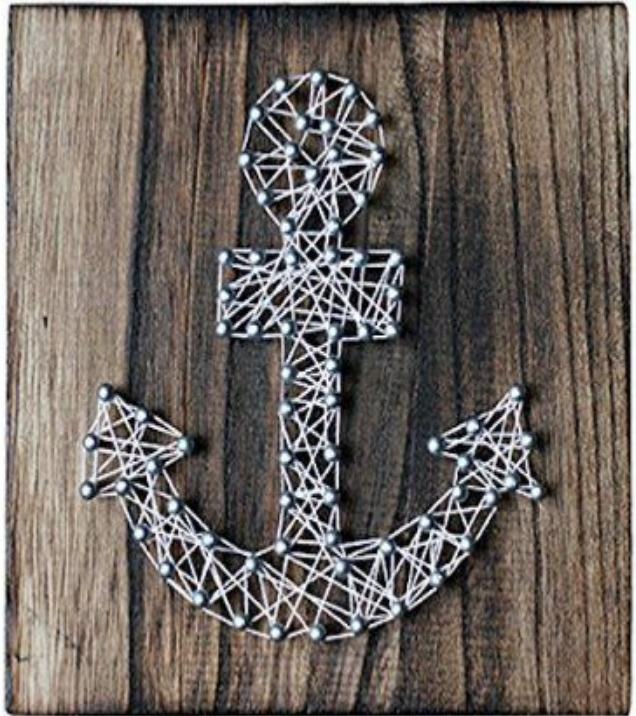

# Class Structure:

- Give each class participant a board
- Let them paint their board their desired color or design
- Using paper have them draw what string design they want on their board
- Place the paper on the board and using it as a guide hammer nails every few inches around their design into the board
- Pull the paper off of the board
- Tie the string around one nail and loop around each nail in varying pattern to fill in the design
- When finished knot the string around the final nail and cut the end off

# Materials & Supplies

*12"x12" boards*

*Nails that are no longer than 1 1/2 "*

*Hammers*

*Paint*

*Paint brushes*

*pens/pencils*

*Paper*

*Embroidery string*

# Pro Tips by Jordan Greenhalgh

- \* Have ipads or access to a computer to look up designs
- \*keep the nails and hammers in a separate place so that they have to ask for them so that these supplies are only used when needed
